

100 DAYS - 100 PROJECTS CHALLENGE

Update: I finished this challenge on 25th December 2019. Read more about my experience [here](#).

Purpose

100 Days - 100 Projects it's a challenge I'm going to take (and you can join too) starting today (17th September 2019) that it's meant to improve my programming skills by building projects (lots of them 😊).

Think of it as the next step if you ever participated in the **#100DaysOfCode** challenge.

Note: *Scroll down to see the projects I've built so far.*

Note #2: *at the end of the post you can also find 3 variants of this challenge if you feel like changing it a little bit. 😊*

Rules

- create a project per day
- share your progress on Social Media ([Twitter](#), [Facebook](#), [Linkedin](#), etc) using the **#100Days100Projects** hashtag
- a project could be: **an app, a component, a website, a game, a library**, etc
- you can pick what programming language and framework you like
- the project has to be done by 11:59 PM

Rules for me

I've created some rules for myself that I don't want to enforce on anyone, but feel free to do the same if you want!

- if I fail to complete the project for the day, the first 5 people to point it out on Twitter ([@florinpop1705](#)) will receive \$5 via PayPal (a total of \$25). Adding a little bit of motivation for myself! 😊 (Before requesting anything, be sure to check the time in my timezone first - for me the timezone is GMT+2)
- in this post you'll be able to find a link to all of the projects that I'm going to create (see the table below)
- for some of the projects you'll also be able to find an article/a tutorial

Anyone is welcomed to join the challenge alongside me! I'm going to be available on our discord channel where you can come to share your progress or if you need any help along the way.

Join the discord channel by becoming a patron [here](#).

Contribute

There is also a [Github repository](#) where you can propose any project you'd like me to create! Let's see how creative you can be! 😊

And if you feel supportive, make sure you follow and support me on Social Media! Thank you! 🙏

Projects list

Day	Project	Article / Tutorial
001	Random Meal Generator	Link
002	2019 Mood Calendar	-
003	Double Noise Flow Field	-
004	Catch the insect	-
005	User Profile Design	-
006	Pokedex	-

Smaller versions of the Challenge

If you feel intimidated by the **#100Days100Projects** challenge, you can start small by doing either:

- **#7Days7Projects** or
- **#30Days30Projects**

The rules are the same as for the **#100Days100Projects** challenge.

The Ultimate Challenge!

If you feel like **#100Days100Projects** is too easy for you, then you can go for the **Ultimate Challenge** by working on **#365Days365Projects** challenge. Whoever does this challenge really deserves a medal! 🏆

If you have any questions, feel free to [contact me](#).
